Application/Control Number: 09/781,090

Art Unit: 3611

Ý

1. Applicant is reminded that no "new matter" may be introduced into an application after

its filing date. Any subject matter that is <u>not</u> supported by the originally filed specification

Page 2

(including the original drawings) constitutes "new matter". As set forth below, the amendment

filed 9/1/04 is replete with new matter. Applicant may wish to file a continuation-in-part

application (which may disclose and claim subject matter not disclosed in the prior application).

However, the new subject matter would not be entitled to the priority date of the original

application and the provisional application.

2. The drawings were received on 9/1/04. These drawings are not approved because they

are replete with new matter that is not supported by the originally filed specification. The

drawings are entirely new and are completely different from the originally filed drawings.

3. The amendment filed 9/1/04 is objected to under 35 U.S.C. 132 because it introduces new

matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter

into the disclosure of the invention. The added material which is not supported by the original

disclosure is as follows: The specification has been completely rewritten and is replete with new

matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode

contemplated by the inventor of carrying out his invention.

5. Claims 1-20 are finally rejected under 35 U.S.C. 112, first paragraph, as failing to comply

with the written description requirement. The claim(s) contains subject matter which was not

described in the specification in such a way as to reasonably convey to one skilled in the relevant

}

art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Most of the subject matter in the amended and new claims is not supported by the originally filed specification.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel G. DePumpo whose telephone number is 703 308-1113. The examiner can normally be reached on Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 703 308 1113. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
